To whom it may concern

My name is Evan Westerby and I have just completed the Architectural Technologist program at Sheridan College. I would like to apply for a draftsman, or related position at your company. I have looked through your website as well as your past works and I believe that I could be of great assistance to your company.

I am an outgoing quick learner with a passion for architecture. Along with my past schooling at Sheridan College and two previous work term experiences I have also worked in construction during the summer months for the better part of 5 years.

I possess very strong skills in AutoCAD, Revit and MS Office, being among the top of my class for the related courses in ever semester. I also have a good knowledge of the Adobe Master Suit. In my previous Work terms I have created working drawings myself as well as assisted in the creation of more complex working drawings for companies such as the Guelph medical centre. As well I was also tasked with applying for several building permit applications and site plan approvals in multiple cities across Canada. This also required me to gain knowledge of every Canadian building code, this also allows me to easily work on projects beyond the boundaries of Ontario.

My attention to detail and excellent problem-solving skills ensure that every project I work on is done accurately and to the highest standard that I can produce. I am comfortable working as part of a team or alone to get the job done. My verbal communication skills and positive attitude make me an effective communicator with all other employees in the firm.

I am excited about the chance of working for you. My enclosed resume clearly demonstrates my interest and the way in which my skills and experiences are compatible with this role.

I look forward to the opportunity of discussing my application with you further and how I can significantly contribute to the ongoing success of your company.

Sincerely

Evan Westerby
