## Objective

---

As a student who is aspiring to become an Architectural Technologist in the future, I am hoping to become a contributing member in the architecture world. I have an eagerness to learn & hone my skills & knowledge in the architecture industry, especially in the sustainable/green technology portion to which I am an advocate.

## Skills & Qualifications

---

- Proficient skill & knowledge of drafting programs such as AutoCAD & Revit
- Proficient Skill with rendering programs such as 3ds Max and Lumion
- Proficient with the latest versions of Microsoft office programs such as Excel & Word, along with Adobe Photoshop, with decent knowledge of Adobe Illustrator
- Ability to read, interpret & creating working drawings, site plans and presentations
- Knowledge of the latest edition of the Ontario Building Code, particularly with Part 3 & 9
- Knowledge in construction estimating with Microsoft Excel
- A strong worker with the focus and perseverance required to work in a fast pace team-based environment
- A strong communicator with good verbal & written communication skills.
